paying, first class business at once. Address G. S. M., Herald office.

IMPORTANT TO MANUFACTURER: OF DRY GOUDS, I The inventor of a Universal Power Loom wishes to sail its inventor in the United States. The Universal Power Loom combines various advantages: Two or three warps can be woven on it, thereby producing all warp effects aimed at for pilat and compount goods, as well in material as in combination. Each yarn beam can be isolated and regulated back and forward; it permits a twenty-fold change of colorin pick, filing and picking, from one side or the other, in number, order and pick-and-pick; the greatest perfection in the performance of this machine, even in complicated articles of the most extensive number of colored pick, is obtained by universal pick wachers. It admits of every change that may be desired in pattern and combination, dratting and designs of any kind whatever, and is, therefore, particularity well adapted for the manufacture of fancy articles and dress goods. For further information apply direct to the inventor of the Universal Webesmachine, care of EUGEN FORT, Leipsic, Germany.
